Aspiring Software Developer & Network Engineer

I am a motivated IT student with some hands-on experience in software development, network design and a bit of web development. Skilled in multiple programming languages and creative tools. Passionate about building functional, user-focused solutions and continuously learning new technologies. I'm currently expanding my skills in system administration using Ubuntu.

EDUCATION & CERTIFICATIONS

Tertiary Qualifications

Bachelor of Science in Information Technology
[Northwest University] - [2021] to Present

TOOLS & TECHNOLOGIES

- **Programming Languages:** C++, Java, Python, C#, SQL, HTML (basic), CSS (basic), JavaScript (basic)
- **Operating Systems:** Windows, macOS, Linux
- **Office & Productivity Tools:** Microsoft 365 (Word, Excel, PowerPoint, Outlook)

RECENT PROJECT EXPERIENCE

Office Network Setup – Cisco Packet Tracer

Group Project | 2025

- Designed and implemented a full office network using Cisco Packet Tracer.
- Collaborated on routing, subnetting, IP addressing, and logical topology design.
- Conducted research to inform hardware/software budgeting and network scalability.
- Ensured proper VLAN setup and inter-device communication protocols.

Website Portfolio Project

- Developed a personal webpage using HTML, CSS, and JavaScript.
- Self-taught front-end development basics and applied responsive design principles.
- Implemented a clean UI to showcase skills and projects with interactive features.
- Focused on accessibility and user-centered design principles.

Additional experience & References

PNA | New Redruth, Alberton

Dec 2023 – Jan 2024 & Dec 2024 – Jan 2025

- Provided customer service and managed point-of-sale transactions
- Developed teamwork and time management skills in a fast-paced setting
- Built soft skills that translate well into collaborative IT environments
